

ASADI WINE BOTTLE CRADLE

ASADI WINE BOTTLE
CARRYING CASE

ASADI WINE BOTTLE CRADLE

ASADI COASTERS & DOCK

ACCESSORY PLANE

DESCRIPTION

The Asadi Wine Bottle Cradle is a holder that delicately balances wine bottles with only two points of contact in a sensual, dynamic form.

The main body of the cradle is composed of stainless steel with a satin #4 finish carefully outlined with genuine leather trim. Prominent design features of the Asadi Wine Bottle Cradle are the bottle view window that accepts the bottle neck and the customizable Asadi logo at the opposite end of the curve.

The simple cradle form is surprisingly stable when considering the limited material resisting the weight of a full wine bottle. Use the cradle as a showcase for individual bottles in your collection or gracefully hold a bottle during tasting, however you chose to use the cradle it is sure to be a topic of discussion.
